Product Description

Arctic Cat Wildcat XX Black Hills Edition 2027 Side-by-Side

If you want to take on some of the toughest trails, you'll need the best of the best. You want a side-by-side built for the challenging climbs and the tricky terrains, and with the Wildcat XX you'll get just that. The Wildcat XX Black Hills Edition combines a purpose-built chassis, a capable powertrain, and thoughtfully selected standard features to produce a well-rounded off-road machine. Arctic Cat's decades of powersports engineering are evident throughout the design, from the suspension geometry to the ergonomic cabin layout. The Arctic Cat Wildcat XX Black Hills Edition is designed for riders who take their off-road experience seriously. As part of the Wildcat XX performance lineup, this side-by-side prioritizes raw capability and chassis stiffness for riders who want maximum performance on demanding terrain. Whether you are navigating tight forest trails, open desert terrain, or challenging rocky landscapes, the Wildcat XX Black Hills Edition is built to handle it with confidence.

The Wildcat XX Black Hills Edition is purpose-built for performance enthusiasts who spend their time on demanding terrain and want a sport side-by-side that keeps up with their ambitions. It excels on rocky desert trails, sand dunes, and high-speed open terrain where chassis rigidity and suspension travel are critical. Riders who participate in organized off-road events, desert races, or simply seek the most capable sport UTV available will find the Wildcat XX Black Hills Edition a compelling option. The Wildcat XX Black Hills Edition is backed by a 6 Months warranty.

Engine and Performance

The Wildcat XX Black Hills Edition is powered by a Liquid-Cooled, 3 Cylinder engine, delivering the torque and horsepower necessary for aggressive off-road performance. Fuel delivery is handled via EFI (Electronic Fuel Injection), ensuring consistent power response across all throttle positions and altitudes. The drivetrain routes power through an ADAPT CVT, providing smooth and predictable power delivery for confident acceleration on climbs and across challenging obstacles.

- Engine displacement: 998cc
- Engine type: Liquid-Cooled, 3 Cylinder

- Fuel system: EFI (Electronic Fuel Injection)
- Drivetrain: ADAPT CVT
- Fuel capacity: 9.8 gal (37.1 L)
- Starting system: Electric Start

Suspension and Chassis

The suspension system on the Arctic Cat Wildcat XX Black Hills Edition is engineered to absorb trail chatter and larger impacts while keeping the machine level and predictable. The front features Double A-Arm with 18-in. (46 cm) Travel and the rear runs Trailing Arm with 18-in. (46 cm) Travel, providing ample travel for technical terrain. The 4 Wheel Hydraulic Disc, Dual Piston Caliper Front, Single Piston Caliper Rear system delivers reliable, fade-resistant stopping power. The chassis is built to be rigid enough for aggressive driving while still maintaining the compliance riders need on long trail days.

- Front suspension: Double A-Arm with 18-in. (46 cm) Travel
- Rear suspension: Trailing Arm with 18-in. (46 cm) Travel
- Braking: 4 Wheel Hydraulic Disc, Dual Piston Caliper Front, Single Piston Caliper Rear
- Tires: Kenda Klever 32x10 R15 front / Kenda Klever 32x10 R15 rear
- Ground clearance: 16 in. (40.6 cm)

Dimensions and Cargo

The Arctic Cat Wildcat XX Black Hills Edition is sized for trail accessibility while providing the interior space that riders and passengers need for an extended day out. At 1,918 lbs (869.9 kg), the machine is substantial without being unwieldy. The rear cargo area offers 300 lbs (136 kg) of carrying capacity, making the Wildcat XX Black Hills Edition a practical choice for riders who need to haul gear alongside passengers.

- Overall length: 139.2 in (353.5 cm)
- Overall width: 64 in. (162.6 cm)
- Overall height: 68.5 in. (173.9 cm)
- Weight (dry): 1,918 lbs (869.9 kg)
- Cargo bed capacity: 300 lbs (136 kg)
- Hitch: Not Equipped

Cabin and Standard Features

The operator environment inside the Arctic Cat Wildcat XX Black Hills Edition has been designed with rider comfort and control in mind. Seating accommodates Stitched, Two-Tone, Contoured Bucket Seats, 3 Point Seat Belts passengers. Lighting is provided by dual high/low beam halogen headlights with led accents and dual led brake lights/tail lights, ensuring good forward visibility during low-light conditions. The Wildcat XX Black Hills Edition is available in White. Standard accessories include: Front Winch Bumper, 4,500-lb WARN Winch, Rock Sliders, Trail Side Kit, Aluminum Roof, Garmin Tread Powersports Navigator with Long Range Antenna.

- Seating capacity: Stitched, Two-Tone, Contoured Bucket Seats, 3 Point Seat Belts passengers
 - Lighting: Dual High/Low Beam Halogen Headlights with LED Accents and Dual LED Brake Lights/Tail Lights
 - Available colors: White
 - Starting method: Electric Start
-
